Patient Welcome Packet

MEMORY & MOVEMENT
CHARLOTTE

Welcome

Welcome to Memory & Movement Charlotte (MMC). We are an independent, nonprofit medical practice caring for patients with memory and movement disorders. We communicate closely with each patient's primary care physician and other specialists to ensure coordination of care. MMC operates as a membership practice, allowing us to deliver care utilizing our Time and Attention model. This includes longer appointments to meet the needs of the patient and family, prompt access to the medical team between visits, and ongoing patient and caregiver education and support.

This Patient Welcome Packet has been designed to thoughtfully guide you through the new patient experience so that you feel prepared and comfortable with your MMC team every step of the way. For questions, please contact Katie Benton, Patient Experience Coordinator, by emailing kbenton@mmclt.org or calling (704) 577-3186.

OUR PROMISE TO YOU

We promise to provide every patient with personalized, expert care based on our four guiding principles for patient care – calm, clean, safe, and loved.

We promise to treat every patient with dignity and compassion, seeing the whole person beyond the challenges they may be facing.

We promise to treat every family and caregiver with respect and empathy, as they are valued members of the patient's care team.

SCHEDULING

How to schedule an appointment

Our goal is to provide you with timely access to appointments when you need them.

At the end of appointments, the nurse or patient services specialist will schedule the next appointment.

Appointments can also be scheduled by sending an appointment request through your online Patient Portal account or calling 704-577-3186.

Prior to an appointment, the patient/caregiver will receive an appointment reminder according to the following schedule:

- 4 days prior – email
- 3 days prior – text
- 2 days prior – automated telephone call

How to cancel and/or reschedule an appointment

MMC's goal is to provide every family the time and attention they require. We reserve an extended time slot on our schedule for each patient appointment. We strongly encourage patients to keep every appointment, as provider schedules are typically full and demand for appointments is very high.

In the event you must cancel an appointment, please do so as early as possible. If you miss or reschedule an appointment without contacting our office at least 48 hours in advance of the appointment time, you will be charged a $50 fee. Please keep in mind that a late cancellation does not allow us time to fill the appointment slot with other patients who are on a waiting list.

We understand that emergencies occur, yet we ask that you make every effort to keep your scheduled appointments. Missed appointments are reviewed on an individual basis.

FINANCE

Insurance

We accept Medicare and many private insurance options, yet MMC is not in-network for all options, which may result in some costs not being covered by your insurance. Prior to your first appointment, we make every attempt to confirm whether your healthcare coverage is in-network or out-of-network, allowing you to decide if you would like to move forward with enrollment. Insurance will be billed for each visit. **If you have not already done so, please email a photo of the patient's insurance card (front and back) to us at email@mmclt.org. We will contact you if your insurance is out-of-network.**

Annual Membership Fee

MMC charges an annual membership fee of $750, which is not covered by insurance.

Your membership fee allows us to deliver care and support with our Time and Attention model. This includes longer appointments to discuss patient and family needs, prompt access to your medical team between visits, and ongoing patient and caregiver education and support.

We collect $250 of the annual fee at the time your first appointment is scheduled, and the remainder is collected at your second visit. This second payment can be paid in one payment or monthly installments.

Scholarships may be provided by our parent organization, Charlotte Neuroscience Foundation, to those for whom this is a financial challenge. Scholarship applications and payment plan options are available on request.

During Your New Patient Visits

MEMORY & MOVEMENT CHARLOTTE

- **Complete and sign new patient forms**
  (New Patient Information, Care Team Contact List, Release of Medical Records Authorization, No Show & Cancellation Agreement, Financial Agreement, Assignment of Benefits)
- **Hearing aids and glasses**
- **Insurance cards**
- **Medications, including over-the-counter medications and supplements, in their bottles**

  (Healthcare Power of Attorney, Financial Power of Attorney, Living Will, DNR, MOST)

WHAT TO EXPECT AT YOUR NEW PATIENT VISITS

At least one family member (maximum 2) plus the patient are required to attend all appointments, unless otherwise directed by your clinical team.

Our new patient appointment is very thorough and requires two visits.

- The first new patient visit is a 2-hour appointment with your clinical intake team. You and your family member will meet with our physician assistant or nurse practitioner and nurse navigator.
- The second visit is a 1-hour appointment approximately 4 weeks later with your MMC physician and nurse.

During the first appointment, your clinical intake team will discuss and thoroughly review your new patient paperwork, medical history, medications, and primary concerns. You will have a physical exam and cognitive testing. Finally, we will discuss any tests your MMC physician recommends you have prior to your next appointment, and introduce Take Charge!, our patient and family education and support program.

Prior to the second new patient visit, your clinical intake team will review your case and test results with your MMC physician. During the second visit your physician will get to know you, perform a physical exam, discuss test results, diagnosis, and answer questions. Together, you will create a patient-centered treatment plan. You will have time both alone and with your family to speak with your physician.

After Your New Patient Visit

MEMORY & MOVEMENT CHARLOTTE

LAB WORK

If bloodwork is ordered by your clinical team or physician, we recommend Labcorp which is conveniently located near our office at 330 Billingsley Road, 1st floor. This can be done on a walk-in basis right after your MMC appointment.

If you have an upcoming medical visit with another provider and prefer to have labs drawn at that office, please tell your nurse during your appointment.

Lab results will be reviewed at your next appointment. If there is something that needs to be addressed prior to your next visit, you will be contacted by phone.

RADIOLOGY

Depending on the specific imaging test ordered, we use various radiology centers in the area. Please let your nurse know if you have a location or provider preference and we will do our best to accommodate your preferences. You should expect a call from the imaging center within 1 week to schedule your test. You may also contact the imaging center directly by phone to schedule the test, but please wait at least 48 hours after your MMC appointment to ensure they have received our order.

Radiology results will be reviewed at your next appointment. If there is something that needs to be addressed before your next visit, you will be contacted by phone.

CARE PLAN

This is an appointment for just the caregiver, and allows the caregiver time to discuss how they are doing, what support they need and discuss the caregiving journey. The patient does not attend this appointment. A Care Plan appointment may be recommended by your clinical team or physician any time after your initial evaluation, and it is repeated once per year or more frequently if warranted.

This one-hour appointment is covered by Medicare for patients with any cognitive impairment and provides time for caregivers and MMC clinicians to discuss available resources. Annual Care Plans have been found to improve the quality of life for the patient and caregiver.

Topics discussed during a Care Plan appointment include:

- **Diagnosis and treatment**
- **Main concerns and goals**
- **Advance directives**
- **Home environment**
- **Safety assessment with recommendations**
- **Caregiver stress**
- **Community resources**
- **Strategies for behavior, personal care, and communication**

A written Care Plan is provided after your Care Plan appointment.
